INTRODUCTION

The Materials Science and Technology Society of Nigeria (MSN) in collaboration with top materials related organizations and institutions in Nigeria, is organising her annual Congress and Workshop tagged NIMACON2018 on the theme TOWARDS SUCCESSFUL IMPLEMENTATION OF THE ECONOMIC RECOVERY AND GROWTH PLAN: The Role of Secondary Raw Materials Development, as it affects the strategic areas of some National Economy. The congress would focus on materials resources, conventional and advanced secondary raw materials development technologies/activities around the world and implications on sustainable development of the Economy. The Congress is thus, planned to be a forum whereby Materials-related professionals in the fields of Physics, Chemistry, Mathematics, Electronics, Materials Science, Metallurgy, Agriculture, Building Technology, Engineering, Biological Sciences, Biotechnology, Geology, among other diverse disciplines in Nigeria and from around the world would discuss the theme of the congress. Special workshops will also be featured.

CONGRESS SUB-THEMES

1. Science and Characterization of Secondary Raw Materials
2. Nanotechnology Applications in Development of Secondary Raw Materials
3. Development of Secondary Raw Materials from Solid Minerals, Biomaterials and Agricultural Products.
4. Development of Secondary Raw Materials for Manufacturing and Sustainable Infrastructure
5. Smart Materials Development
6. Policy Issues in Secondary Raw Materials Development
